- ✓ Real-world Compliance Experience
- ✓ Industry's Best Support Portal

WHY CustomsNowTM?

The Right Company – A New Breed of Customs Brokerage Solutions

CustomsNowTM combines the right level of technology with the best experience and exceptional support. We are unique -- an ACE-Certified ABI vendor and a fully Licensed Customs Broker -- and can champion your import initiatives in a way that pure software companies can't. With decades of import experience, and a laser focus on compliance, we know what it takes to design, implement and manage a world-class direct filing program. We've done it for some of the largest U.S. importers and we can do it for you.

"The added compliance, speed of filing and cost benefits has exceeded our expectations and we look forward to a continued partnership with CustomsNow."

– Anthony Melendez, Director of Imports and Customs Compliance, Wet Seal / Arden B

The Right Support – As Technology Commoditizes, Experience Stands Out

When choosing a technology, a key consideration is the people behind it. Not only can our licensed team of professionals help you develop and initiate a direct filing program, we're there post-launch to support it. We're backed by proven, relevant, hands-on direct filing experience.

"The knowledge and integrity of the CustomsNow team was a major factor in our decision to self-file. They made the system integration an easy process. Within two months of implementation we were self-filing even more entries than anticipated, thus further reducing our entry fee cost outlay."

– Larry Matthews, Director of International Trade and Customs Compliance, Medtronic.

The Best Technology – Proven Software Made for Importers

With CustomsNow's SaaS platform, you can leverage the speed, security and ease of this technology to significantly reduce costs and increase efficiency. It's innovative, highly secure, and can easily integrate with any system via file transfer to fully maximize efficiency and savings -- whether your data is stored in your ERP, GTM or any other system.

100% Client Retention Rate – CustomsNowTM has enjoyed a 100% client retention rate due to the fast response, deep knowledge and competency of our licensed support staff.
